

**Helping Hurricane
Recovery one family at a
time.....**

*From Sabine Pass where the
Gulf of Mexico meets land to
Newton, teams will find that
Texas hospitality will create a
friendship not long forgotten.*

*Teams will work beside survi-
vor families to help rebuild their
lives. From one blue roof to
the next, neighborhoods will
return better than before.*

Be part of a Recovery Team!

How to get Started!

Call:

409-225-3136

Ask:

- about organizing a team
- dates available for teams
- current projects
- skills needed

Rita Recovery

Southeast Texas was bashed by Hurricane Rita in September 2005.

- 16,000 homes were damaged
- 4,800 totally destroyed
- 56 Methodist churches damaged
- 2 million trees snapped and destroyed

Stage one will be to put roofs back on homes so families can return to their neighborhoods and their jobs. Many factories and business are closing because there are no workers.

Stage two will concentrate on the interior of the house where multiple skill levels will be needed.

The office for Rita Recovery is located in the Wesley UMC of Beaumont. Here you will find dedicated individuals who are there to help you in creating a positive and productive mission journey in Hurricane Recovery.

Our responsibility to you:

- Evaluate your team as to their skills
- Match your skills to the appropriate worksite
- Mail applications to the team
- Make team housing assignments in advance
- Send a list of items to bring
- Greet the team at the work site
- Deliver materials to the site
- Over see the project
